Required Federal Reporting Measures Commonwealth of Pennsylvania

District Required Federal Reporting Measures

A Required Federal Reporting Measure is a critical tool both for promoting State, LEA and school accountability, and for engaging parents and communities in meaningful discussions about the academic challenges and opportunities facing their schools. Accurate and timely information brings transparency to education policies, uncovers academic challenges and deficits, and highlights areas in which the State, LEA, and schools have made gains.

A well-informed public is important to improving LEAs and schools. In the same way that data enable educators to make better decisions about teaching and learning, data can also help parents and other community members work more effectively with educators and local school officials. Additionally, the more parents and community members know about the academic achievement of their children and their schools, the more likely they are to be involved in their local schools and LEA. Equipped with information on academic results and teacher quality, parents and community members can make better decisions concerning their children's educational pathways and become more effective advocates for their children's schools and LEA.

Results Included in Required Federal Reporting Measure Data

Student results from the Pennsylvania System of School Assessment (PSSA) grades 3-8, Keystone Exams grade 11, and the Pennsylvania Alternate System of Assessment (PASA) grades 3-8 and 11 are used to calculate Required Federal Reporting Measure data.

This report contains:

- **Attendance and Graduation Data**
Attendance and graduation rates are displayed for the previous school year.
- **Accountability Data**
This section shows the district's performance compared with the goals set by federal and state accountability requirements. Student results from the PSSA, Keystone Exams, and the PASA are listed by disaggregated group and performance level.
- **Achievement Data**
Here you can compare two years of participation and academic performance data for the PSSA, Keystone Exams, and the PASA for the All Student category only. One year of data is presented for participation rates and performance levels in the other categories. The results are displayed by grade, subject, and disaggregated group.
- **Federal Accountability Designations**
Here you will find the numbers of Title I schools that have been identified as Reward: High Achievement, Reward: High Progress, Focus, and Priority.
- **Teacher Quality Data**
This section includes both numbers and percentages of classroom teachers in the state who are highly qualified or hold emergency certification.
- **National Assessment of Educational Progress (NAEP) Data**
Federal regulations require that the most recent available academic achievement results in grades four and eight on the state's NAEP reading and mathematics assessments be reported on state and district Required Federal Reporting Measures. This section contains that information.

Attendance and Graduation Data

District: Gateway SD

Pennsylvania's Accountability Data includes data on student performance on the other academic indicators, attendance and graduation rate. Both measures are based on data from the previous academic year. Attendance rates measure the number of days that a student was both enrolled and present in the school. Research shows that a strong relationship exists between regular attendance and academic performance. A four-year adjusted cohort graduation rate, five-year adjusted cohort graduation rate, and a six-year adjusted cohort graduation rate are calculated. Graduates for a particular year are the number of students graduating in four years, five years or six years with a regular diploma. A four-year cohort is described as students entering the 9th grade for the first time four years earlier plus "transfers in" minus "transfers out" over four years. A five-year cohort is described as students entering the 9th grade for the first time five years earlier plus "transfers in" minus "transfers out" over five years. A six-year cohort is described as students entering the 9th grade for the first time six years earlier plus "transfers in" minus "transfers out" over six years. The graduation rate is the number of graduates for a particular year divided by the four-year, five-year or six-year cohort multiplied by 100.

— Indicates 10 or fewer students in a group. To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is greater than 10.

¹ Attendance measure is a goal of 90%, or any improvement from last year.

² For the four-year adjusted cohort, the graduation measure has a goal of 85% or a target of a 10% reduction of the difference between the previous year's rate and the goal of 85%. For the five-year adjusted cohort, the graduation measure has a goal of 85% or a target of a 15% reduction of the difference between the previous year's rate and the goal of 85%. For the six-year adjusted cohort, the graduation measure has a goal of 85%.

³ There can be overlap among the groups since a student may belong to more than one of these groups.

⁴ Historically Underperforming Students—defined as a non-duplicated count of students with disabilities, economically disadvantaged students, and English Language Learners enrolled for a full academic year taking the PSSA. If a student is in more than one of the individual groups (e.g., special education and English Language Learner), s/he is only included in the Historically Underperforming Student group one time—a non-duplicated count. This group is not a cohort but rather students currently in the state meeting the definition during the reported year.

⁵ Made six-year graduation goal of 85%

The purpose of this section of the Required Federal Reporting Measures is to show a comparison between student academic achievement levels and the State's Annual Measureable Objectives (AMOs) in reading/literature and in mathematics/algebra I. The participation tables in this report include students who were enrolled in the state for any part of the academic year. The performance tables in this report include students who were enrolled in the state for a full academic year. These numbers may not match the results in the Achievement Section of the Required Federal Reporting Measures.

Achievement Data

District: Gateway SD

These tables reflect all students taking the PSSA in reading and mathematics in grades 3-8, students taking the PSSA in science in grades 4 and 8, students taking the Keystone Exams (Algebra 1, Biology and Literature) in grade 11 and students taking the PASA in grades 3-8 and 11 who were in the state for any part of the academic year.

The purpose of this section of the Required Federal Reporting Measures is to show how students performed on the PSSA over the past two years in Mathematics, Reading, and Science. This data table captures this district's overall performance results and participation rates by disaggregated group and compares it to this district's results in the previous year. The table reflects all students taking the PSSA in grades 3-8 who were in this district for any part of the academic year.

This table reflects all students enrolled for any portion of the academic year, meaning that these numbers may not match the results reported for Accountability purposes.

— Indicates 10 or fewer students in a group. To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is greater than 10.

¹ There can be overlap among the groups since a student may belong to more than one of these groups.

District: Gateway SD

These tables reflect all students taking the PSSA in reading and mathematics in grades 3-8, students taking the PSSA in science in grades 4 and 8, students taking the Keystone Exams (Algebra 1, Biology and Literature) in grade 11 and students taking the PASA in grades 3-8 and 11 who were in the state for any part of the academic year.

The purpose of this section of the Required Federal Reporting Measures is to show how students performed on the Keystone Exams in Algebra I, Literature, and Biology. This data table captures this district's overall performance results and participation rates by disaggregated group. The table reflects all students taking the Keystone Exams in grade 11 who were in this district for any part of the academic year.

These tables reflect all students taking the PSSA in reading and mathematics in grades 3-8, students taking the PSSA in science in grades 4 and 8, students taking the Keystone Exams (Algebra 1, Biology and Literature) in grade 11 and students taking the PASA in grades 3-8 and 11 who were in the state for any part of the academic year.

The Pennsylvania Alternate System of Assessment (PASA) uses performance tasks to measure the knowledge and skills of students with significant cognitive disabilities. As with the Pennsylvania System of School Assessment (PSSA), the purpose of the PASA is to provide information to school districts and other educational service providers that will help them improve instruction for students with the most severe cognitive disabilities.

NOTE:

Percentages may not total 100 due to rounding. Percentage of students Proficient and above may not total students Proficient and Advanced due to rounding.

This table reflects all students enrolled for any portion of the academic year, meaning that these numbers may not match the results reported for Accountability purposes.

— Indicates 10 or fewer students in a group. To provide meaningful results and to protect the privacy of individual students, data are printed only when the total number of students in a group is greater than 10.

¹ There can be overlap among the groups since a student may belong to more than one of these groups.

National Assessment of Educational Progress (NAEP)

The National Assessment of Educational Progress (NAEP), also known as The Nation's Report Card, is a national assessment of student achievement that is taken by samples of students representative of each state and of the nation. Tests in reading and mathematics are administered every two years and provide a means of comparing the progress of states in raising student achievement. The NAEP scores and the Pennsylvania System of School Assessment (PSSA) scores are not totally comparable. The NAEP scores are based on National Standards, and the PSSA measures standards that are unique to Pennsylvania. The data from the NAEP is based on a small sample, while the data from the PSSA is based on all students.
